

Switching to ActewAGL is a smooth move.

What it means when you choose us as your electricity retail supplier in NSW.

ActewAGL

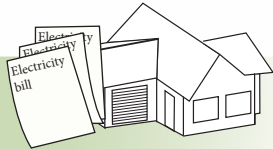

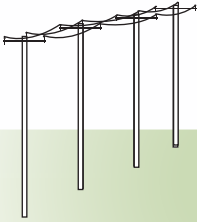

Switching to ActewAGL doesn't change how electricity is supplied to your home.

Live in NSW? When you switch your electricity to ActewAGL we'll become your new electricity retail supplier and be responsible for managing your electricity bills.

Your electricity distributor remains the same and is independent from ActewAGL. The distributor is responsible for the electricity poles, wires and the reliability of the electricity supply to your home and area.

Emergency, fault or interruption to supply.

In the event of an emergency, fault or interruption to the supply of electricity you will need to contact your distributor.
